Chris Klawuhn (2017)
Saginaw County
989-758-3684

MDEQ

Dana and Jeremy reported at the November 16, 2017 MALEHA meeting that a new memo will be sent out to LPH within the next couple of weeks rescinding the decision to discontinue the self-assessment option for the On-Site Program. There will be an option for LPH to drop self-assessment and have DEQ staff conduct the full program review.

EPA's 2016 Michigan Drinking Water Program Review indicated deficiencies in the following areas: Technology updates needed in our current data management/reporting system. NCWS program findings focused on meeting sampling frequency for each of our Type II supplies. Lastly, the report indicated a need for additional funding to MDEQ and LPH. The report did recognize program improvements initiated, however additional program enhancements are needed. The report can be found at:

<https://www.epa.gov/mi/2016-michigan-drinking-water-program-review>

MDARD

Agriculture Commission and MDARD Public Comment on Agricultural Management Practices. MALEHA will be sending comments regarding agriculture water wells, focusing on water well location, cross connections and maintaining minimum well isolation to known sources of contamination.

MALEHA Board Items: The MALEHA Board has decided to remain independent from MALPH and seeks a MOA to act as your Environmental Health Forum.

We now have an excel sheet listing all MALEHA Committee assignments and lists target date for completion. As you can see, we are very busy.

The board will be meeting with our state partners on January 18, 2018

Active Hot Topics:

Several other topics are still active seeing current/weekly activity including:

- DWMAD Water Lab Thermal Preservation Procedures/Issues – Kirby Shane will be at our January 18, 2018 MALEHA meeting.
- MDEQ Closed Loop Geothermal Regulations
- Cross Jurisdictional Sharing Project – Kevin Green will be representing MALEHA

****Enjoy the holiday time off!!**
