

Child Lead Exposure Elimination Commission

MISSION

The Child Lead Exposure Elimination Commission, established by Governor Snyder's Executive Order 2017-2, will work collaboratively with all levels of government and stakeholders throughout the state to eliminate lead exposure for Michigan's children.

VISION

The Child Lead Exposure Elimination Commission envisions a state free of lead exposure by 2030 to benefit the health of Michigan's children. To achieve this vision, the Commission believes a focus on primary prevention is essential in eliminating all sources of lead exposure.

VALUES

The Child Lead Exposure Elimination Commission believes in eliminating lead in air, soil, water, products, and homes by using health equity as a lens and leveraging policy, partnerships, programs, and public engagement in a targeted way that accounts for the inequitable burden of lead exposure among individuals and communities.
