Program Purpose: This program will inform participants of strategies in mental health issues across the life span. Speakers will present current information on resources and interventions in the community that address the uniquely delicate balance of physical, mental and emotional health.

Target Audience: The program content is intended to inform public health nurses, public health nursing managers and administrators, nursing faculty, community-based providers, care coordinators, and home care providers. In addition, school nurses, occupational health nurses, and others will find the information valuable for practice now and in the future.
