Introduction

Tooth decay is the most common chronic disease impacting children today¹. With a growing understanding of the link between oral health and systemic health, the need for innovative approaches to enable providers to optimize quality of care and help address this disease burden is growing. In 2016, Altarum launched a first-of-its-kind statewide oral health monitoring system, [Michigan's Dental Registry \(MiDRSM\)](#), aimed at transforming the way medical and dental providers communicate regarding their patients' oral health. MiDRSM is a web-based application that increases communication and transparency among the patient's care team, allowing for better coordination in patient treatment and referrals across the medical and dental settings, positively impacting the quality of oral health care provided, and increasing early prevention among young patients.

Care providers want to provide the best quality care possible for their patients, yet to date, coordinating care across these settings has had its own unique barriers. MiDRSM was born out of the need to establish a mode of communication between health care providers that takes into account the significantly different technology environments of each setting. Through it, providers can document preventive oral health services provided, insert notes for the dentist to review, and place referrals directly to dentists who accept patients with Healthy Kids Dental coverage. Referrals are transmitted via fax to the dental office, and the dental office can then look up the patient record directly and update it as needed.

This new tool can also help providers engage in federal incentive programs. In early 2016, MiDRSM was classified by the Centers for Medicare and Medicaid Services (CMS) as a Meaningful Use Specialized Registry. MiDRSM houses valuable information related to a child's access to and utilization of preventive oral health services in both the medical and dental environments, and currently there are more than 1,500 physicians and dentists that have attested to using the system. Data collected by the tool is submitted to the State of Michigan creating a valid, reportable data system for monitoring access to pediatric oral health services, and overall dental caries rates.

Care coordination is a key component to effectively improving oral health behaviors and reducing the burden of oral health disease in children. As primary care providers become more involved in the provision of preventive oral health services, counseling patients and identifying behavior risks, and referring patients to appropriate dental care, supporting communication between these providers will play a significant role in reducing duplicative care and improving quality of care.

MiDRSM is available today on the State of Michigan's Single Sign On ([MiLogin](#)) & Allscripts Professional EHR. Sign up today and use MiDRSM to:

- 1. Document and track preventive oral health services and treatment**
 - Fluoride Varnish
 - Oral Screening Clinical Findings and Notes
 - Dental Treatment
- 2. Submit a referral to a Medicaid/Healthy Kids Dental-accepting dentist**
 - Search for a dentist using a distance- or match-based search
 - Review information about each dentist, including their hours of operation, languages spoken, and if they're accepting new patients
 - Submit a referral directly to the dentist through MiDRSM
- 3. Review the status of a referral**
 - Review whether a referral has been accepted, an appointment has been scheduled, or patient has been seen by the dentist.

How to Request MiDRSM Access through MILogin

Login to <https://milogintp.michigan.gov>

1. Select Request Access from the MILogin page.

2. Search for “MiDR” if using the MILogin for Third Party, or “Michigan’s Dental Registry” if using the MILogin for Workers system under Search Application.

3. Select “MiDR Federation” at the bottom of the page

4. Review the terms of service and click “I agree to the terms and conditions”. Click Request Access.

The screenshot shows a modal window titled "MiDR Federation" overlaid on a dark background. The modal contains a scrollable text area with the following text:

Michigan's Dental Registry was established as part of the Michigan Caries Prevention Program, funded by a Round 2 Health Care Innovation Award from the Centers for Medicare and Medicaid Innovation (CMMI). The Michigan Caries Prevention Program (MCPP) aims to create sustained, system-wide improvement in children's oral health care delivery, impacting approximately 1 million publicly insured children by 2017. An integral step is promoting a more coordinated system of care, and engaging pediatric primary care providers in early prevention efforts by integrating preventive oral health services in the early well child visits. MiDR serves as a tool to increase the communication and transparency between medical and dental providers, allowing for better coordination of patient care. MiDR provides a web-based platform that helps physicians manage preventive oral health services and refer patients to a dentist, and closes the loop on patient referrals between medical and dental providers. Through a partnership with Delta Dental of Michigan, MiDR offers a distance-based and match-based dentist search within the Healthy Kids Dental dentist network of Michigan. MiDR houses valuable information related to a child's access to and utilization of preventive oral health services in both the medical and dental environments, and will support public health efforts in oral health with data to drive future decisions and strategies.

Below the text is a "Terms & Conditions" section with a scrollable area containing the following text:

The Michigan Department of Health & Human Services (MDHHS) computer information system (systems) are the property of the State of Michigan and subject to state and federal laws, rules and regulations. The systems are intended for use only by authorized persons and only for official state business. Systems users are prohibited from using any assigned or privileged access control mechanisms for any purposes other than those required to perform authorized data exchange with MDHHS. Login IDs and passwords are never to be shared. Systems users must not disclose any confidential, restricted or sensitive data to unauthorized persons. Systems users will only access information on the systems for which they have authorization. Systems users will not use MDHHS systems for commercial or partisan political purposes. Following industry standards, systems users must securely maintain any information downloaded, printed, or removed in any format. Once the systems utilize an Internet-enabled, this information must be destroyed in an...

At the bottom of the modal, there are two radio buttons: "I agree to the terms & conditions" (selected) and "I do not agree". Below these are two buttons: "CANCEL" and "REQUEST ACCESS".

5. Provide your email address and work phone number then click Submit.

The screenshot shows the "Request Access" form with the "Additional Information" section active. The form has a progress bar at the top with three steps: 1. Search Application, 2. Additional Information (current step), and 3. Confirmation. The "Additional Information" section contains the following text:

Provide following information to submit your access request

* Required

*Email Address

erica.grochowski@aitarum.org

*Work Phone Number

Below the form are two buttons: "SUBMIT" and "RESET".

6. Click Home to return to the MiLogin Homepage.

The screenshot shows the "Request Access" form with the "Confirmation" section active. The form has a progress bar at the top with three steps: 1. Search Application, 2. Additional Information, and 3. Confirmation (current step). The "Confirmation" section contains the following text:

Success

This request for your access has been successfully submitted.

You will see the updated list of application(s) on your home page once it is processed.

Below the form is a button: "HOME".

7. You should now have 'MiDR Federation' listed under "Access your applications". To launch the tool, click the hyperlink MiDR Federation from the MILogin page.

8. To access MiDRSM in the future, you can launch the tool from either the MILogin portal, or by going to www.MichigansDentalRegistry.org. It may be helpful to bookmark or save this page in your browser.

Thank you for visiting MiDR! A federally funded grant project, MiDR was developed as a product of the Michigan Caries Prevention Program, aiming to reduce the burden of childhood dental disease in Michigan. MiDR is a brand new registry available to eligible providers for fulfillment of the public health specialized registry reporting objective for Meaningful Use.

After submission of the referral, the patient information will be sent to the dental provider's office that you selected, providing the dentist with information about treatment that has been provided and patient findings. Your clinic or your patient will need to call the dental clinic to set up an appointment. If you have questions about our referral program, please feel free to contact us at 1-844-4-MiTeeth (1-844-464-8338) or MiDR@Altarum.org.

At the bottom of the modal are "Agree" and "Decline" buttons. A blue arrow points to the "Agree" button.

The background form includes fields for First Name (SAMANTHA), Last Name (BASSIL), Role (Dentist), and Provider NPI (1285083279). Below these are fields for organization selection, including "Comprehensive Dentistry PLLC".

Guide B

1. Click on Get Started.

The screenshot shows the "Welcome to Michigan's Dental Registry (MIDR)" page. A modal window is open in the center with the following content:

Welcome to Michigan's Dental Registry (MIDR)!

Michigan's Dental Registry was established as part of the Michigan Caries Prevention Program, funded by a Round 2 Health Care Innovation Award from the Centers for Medicare and Medicaid Innovation (CMMI). The Michigan Caries Prevention Program (MCCPP) aims to create sustained, system-wide improvement in children's oral health care delivery, impacting approximately 1 million publicly insured children by 2017. An integral step is promoting a more coordinated system of care, and engaging pediatric primary care providers in early prevention efforts by integrating preventive oral health services in the early well child visits.

MIDR serves as a tool to increase the communication and transparency between medical and dental providers, allowing for better coordination of patient care. MIDR provides a web-based platform that helps physicians manage preventive oral health services and refer patients to a dentist, and closes the loop on patient referrals between medical and dental providers. Through a partnership with Delta Dental of Michigan, MIDR offers a distance-based and match-based dentist search within the Healthy Kids Dental dentist network of Michigan. MIDR houses valuable information related to a child's access to and utilization of preventive oral health services in both the medical and dental environments, and will support public health efforts in oral health with data to drive future decisions and strategies.

Questions about MIDR? Please call us at 1-844-4-MITeeth (1-844-464-8338) or send us an email at MIDR@altarum.org.

At the bottom of the modal are "View MIDR Demo" and "Get Started!" buttons. A blue arrow points to the "Get Started!" button.

The background page includes the MIDR logo, a "CREATE AN ACCOUNT" section, and a "Select Care Type" dropdown menu.

2. Select Dental from the Select Care Type drop down menu.

The screenshot shows the "Select Care Type" dropdown menu open. The menu options are:

How to Use MiDRSM

Medical User

Please use the instructions below to look up and update a patient record.

1. Launch MiDR and select your organization from the drop down menu.

The screenshot shows the MiDR Michigan's Dental Registry interface. At the top, there is a header with the MiDR logo and the text 'MICHIGAN'S DENTAL REGISTRY'. On the right, there is a user greeting 'Welcome Jason Taylor', a 'Menu' dropdown, and a 'Log off' link. Below the header, there is a 'Patient Search' section with a text input field labeled 'Enter Medicaid ID'. Below this, there is a 'My Patients' section with a table of patients. A dropdown menu is open over the table, titled 'Please Select Your Organization', with options 'Select Your Org' and 'Pediatrics Plus -- 321 Main St'. A blue arrow points to the dropdown menu.

Patient Name	Date of Birth	Remove
Go, Richard		Remove
Rice, Jeanne		Remove
Hammond, Richard	11/10/2016	Remove
Wizniewski, Jose	11/06/2012	Remove

2. Patient Search: There are two ways to search for and view a patient
 - a. Insert the patient's Medicaid ID and click View Patient.

The screenshot shows the MiDR Patient Search interface. The 'Enter Medicaid ID' field contains the text '44448888'. Below the search field, there is a 'My Patients' section with a table of patients. A blue arrow points to the 'View Patient' button at the bottom right.

Patient Name	Date of Birth	Remove
Go, Richard	03/06/2016	Remove
Rice, Jeanne	09/14/2017	Remove
Hammond, Richard	11/10/2016	Remove
Wizniewski, Jose	11/06/2012	Remove

- b. Select the patient from the My Patients list. Click on the patient's name to select the patient then click View Patient.

The screenshot shows the MiDR Patient Search interface. The 'Enter Medicaid ID' field is empty. Below the search field, there is a 'My Patients' section with a table of patients. The first row, 'Go, Richard', is highlighted. A blue arrow points to the first row.

Patient Name	Date of Birth	Remove
Go, Richard	03/06/2016	Remove
Rice, Jeanne	09/14/2017	Remove
Hammond, Richard	11/10/2016	Remove
Wizniewski, Jose	11/06/2012	Remove

Additional Patient Features:

- Edit patient button is available to make changes to the patient details.
 - Print Patient Summary allows user to print patient summary details as a pdf file.
- If the patient record is not in the MiDR system yet, you will be prompted to enter the patient information. Select Add Patient to enable to Add Patient function. Otherwise, skip forward to step 4.

- **Referral Seen:** when orange, this indicates that the dental provider has opened this referral.
- **Accepted Referral:** when orange, this indicates that the dental provider has actively viewed the referral and accepted it.
- **Scheduled Appt:** when orange, this indicates the patient has scheduled an appointment to be seen by the dental provider. The appointment date will display below the referral status bar. If the date of the appointment changes, the update will display.
- **Patient was seen:** when orange, indicates that the dental provider saw the patient. The referral will now move into the Completed category.

5. Update the treatment update section per the treatment provided and click Save. Not all fields have to be filled to update the record.

8. Choose between the Print PDF or Send Fax options to submit the referral.

Please note: Selecting Print PDF means that

MiDR will not fax the referral to the clinic.

- In the Menu section, options such as MiDR Dashboard, Patient education, user resources and FAQ's are included.

10. MiDR Dashboard:

The Dashboard displays the counts for the number of patient records updated, dental referrals placed, oral screenings completed and number of fluoride varnish applications completed by the clinics.

The charts displayed include a pie chart portraying the number of Fluoride Varnishes applied, not indicated, or declined.

The second chart displays the number of referrals placed by age and by reason in a bar graph.

Dental User

Please use the instructions below to look up and update a patient record.

1. Launch MiDRSM and select your organization from the drop down menu.

2. Patient Search: there are three ways to search for and view a patient.

- a. Enter the patient's Medicaid/Healthy Kids Dental ID or Referral ID and click View Patient at the bottom of the page.

- b. Select the patient from the My Patients list. Click on the patient's name to select the patient then click View Patient to view.

Patient Name	Date of Birth	
Rice, Jeanne	09/14/2017	
Go, Richard	03/06/2016	

- c. View a patient by selecting the referral submitted to the clinic for the patient you would like to view.

Patient Name	Referral ID	Dentist	Clinic	Referral Status	Date of Referral
Go, Richard	100682	Dr. Abdallah	DENTAL FIRST PLLC	Referral Accepted	11/20/2017
Rice, Jeanne	100681	Dr. Smith	Holly Dental Care PC	Referral Accepted	11/20/2017
Fulton, Spencer	100672	Dr. Nastasa	Art Dental Center	Referral Accepted	11/10/2017

Referred To

ROBERT J STEVENSON DDS PC
 Dr. Robert Stevenson
 828 W Huron St
 Ann Arbor, MI 48103
 (734) 994-0909

Patient Information

Patient Name: Patrick Henry
 Phone Number: (734) 445-3322
 Date of Birth: 07/04/2014
 Sex: Male
 Medicaid ID: 55544433
 Special Needs: No

Treatment Provided

Fluoride Varnish: Applied
 Date: 03/02/2017

Oral Evaluation: Obvious Decay; Restorations (Fillings) Present
 Date: 03/02/2017
 Notes: Order placed in EHR; Patient is experiencing tooth pain.

Dental Treatment: Restorative Care; Diagnostic Care
 Date: 12/13/2016
 Notes: No notes entered.

Referring Provider

Name: Terry Manning
 Phone Number: (888) 828-7788 x 889
 Specialty: Family Medicine
 Fax Number: (888) 272-7828

 Male

The patient is a 2 year, 7 month old Male.

Assessment & Plan (Terry A Manning, MD; 3/2/2017 3:17 PM)
Encounter for routine child health examination without abnormal findings
Current Plans

- Screening Of A Patient (D0190)
- Application of topical fluoride varnish by a physician or other qualified health care professional (99186)
- Referral to Dentist

MiDRSM as a Specialized Registry

Eligible professionals enrolled in the Medicare and Medicaid EHR Incentive Program may elect to report pediatric oral health information to the Michigan's Dental Registry (MiDRSM), fulfilling the Specialized Registry Measure. Hospitals are not eligible at this time to select pediatric oral health reporting as a specialized registry measure.

Why Support Electronic Pediatric Oral Health Reporting?

One million children in the State of Michigan are insured through Medicaid. In some areas throughout the State, almost 80% of those children did not visit the dentist during the year. Through the use of Michigan's Dental Registry (MiDRSM), the State of Michigan can effectively increase access among the proportion of Medicaid recipients who are in need of preventive dental services by connecting them with the appropriate care in both the medical and dental setting. The Michigan's Dental Registry's intent is to create valid, reportable data that the State of Michigan can utilize to monitor pediatric oral health processes and outcomes at an aggregate level. The purpose of utilizing the pediatric oral health data is to assess the current condition of oral health within the State and address unmet needs within the population. This data will also allow for better coordination around patient treatment in the medical and dental setting, positively impacting the care provided to Medicaid-insured children.

More information can be found at <http://MITeeth.org/>.

Meaningful Use Registration Test with the Michigan's Dental Registry

Eligible professionals who meet the criteria for selecting pediatric oral health reporting as the Specialized Registry Measure must complete a registration to submit information within 60 days of the start of the meaningful use reporting period. Eligible professionals include: Physicians (Doctor of Medicine and Doctor of Osteopathy), Dentists, Nurse Practitioners, and Physician Assistants who treat patients under the age of 18.

Instructions for completing the registration: Electronically register you and/or your practice with the State of Michigan Health System Testing Repository site (HSTR) at <https://mimu.michiganhealthit.org/>.

Once the registration is completed, an e-mail will be sent with instructions on next steps to comply with meaningful use active engagement requirements.

5 Step Process to Submit Data to Michigan's Dental Registry

1 Learn about Reporting Requirements

The American Academy of Pediatrics and the American Academy of Pediatric Dentistry recommend fluoride varnish application, in the primary care or dental office, upon tooth eruption and every 3-6 months until the age of 3. They also recommend an oral screening starting at age 6 months and then at every well child visit thereafter. Reporting oral health care to Michigan's Dental Registry meets the public health objective specialized registry measure.

To learn more about reporting requirements for MiDRSM, review the details here: <https://michiganhealthit.org/public-health/michigan-dental-registry-for-healthcare-professionals/>

2 Register Intent for Ongoing Submission

Registration of intent to initiate ongoing submissions of MiDRSM reports is required within 60 days of the start of the Meaningful Use reporting period.

- Electronically register you and/or your practice with the State of Michigan Health System Testing Repository site (HSTR) at <https://mimu.michiganhealthit.org/>.

3 Test and Validate for Quality Assurance

Testing and validation is required to ensure that complete and accurate oral health care information has been entered into the EHR. Testing is required to verify that oral health care information is formatted in accordance with the certification and standard requirements. In addition it verifies that the oral health case reports contain the information needed for oral health surveillance activities (Data Quality Assurance).

Testing and Validation Steps

1. Electronically register you and/or your practice with the State of Michigan Health System Testing Repository site (HSTR) at <https://mimu.michiganhealthit.org/>

At this point in the process, EP's may request a letter acknowledging their status for Meaningful Use attestation and auditing purposes.

2. Respond to the invitation to enroll in the Michigan Caries Prevention Program CME/MOC Technical Assistance Program (<http://www.miteeth.org/training.html>) training providers to implement preventive oral health services during well-child visits.¹
3. Validate that the electronic report meets the required format for processing by adhering to the implementation guide. This step requires your EHR vendor or your facility to generate test reports.
 - a. Once you are ready to submit the test report, a MiDRSM onboarding team member will provide you with a login to the Altarum File Transfer server.
 - b. Save and upload the report. The report should be saved using the following naming convention: (Date should be the date file was exported)
 - i. Medical: MiDRMedical_Test_ClinicName_MMDDYYYY
 - ii. Dental: MiDRDental_Test_ClinicName_MMDDYYYY
 - c. After submission of the test report, the MiDR onboarding team will provide feedback on the quality of the test reports.
 - d. Continue to send test reports until they meet the required format and structure.
4. Validate the required oral health case information is being entered into the 2014 or 2015 certified EHR during the patient visits. This step **requires your facility** to become familiar with the oral health case information needed to create a complete oral health case report.
 - a. Enter the required oral health care information into the EHR. Listed below are the required data elements for oral health reporting.
 - i. Fluoride Varnish
 - ii. Oral Screening
 - b. Continue to send ongoing tests (per step 3 above) until approved to send to the registry for processing.

¹ This program is applicable to all primary care providers, who are required to respond to the invitation (with or without interest). Participation is not required as part of the specialized registry data submission.

4

Establish a Transport Method

Reporting can occur electronically via FTP server, or a zipped file sent with encryption and password protection.

5

Send Production Reports and Monitor Data Quality

Once the connection is made with the facility and MiDRSM, oral health care reports should be generated routinely from the certified EHR and sent to the Michigan Dental Registry.

- Monitor the transport feed to ensure oral health reports continue to be sent.
- Keep record of the confirmation letter stating your meaningful use active engagement status.
- Contact MiDR@altarum.org with questions.

Primary Care Provider Required Data Elements

Listed below are the oral health data elements required to be in compliance with this specialized registry reporting requirements. Accepted data formats include Excel or CSV.

MiDRSM - Oral Health Care Exchange Specification

Date of Revision: 11/07/2016				
File Format: CSV or Excel				
Required Fields: "R" = Required, "R2" = Required if known, "O" = Optional				
Field	Field Name	Required	Field Definition	Notes
1	Version of Specification	R	CHAR(5)	Acceptable Values: "v1"
2	Clinic Name	R	CHAR(50)	
3	Clinic OID	R2	OID	Facility Organization ID
4	Clinic Zip Code	R	CHAR(14)	
5	Start of reporting period	R	DATE	YYYY-MM-DD
6	End of reporting period	R	DATE	YYYY-MM-DD
7	Patient encounters (denominator)	R	CHAR(4)	well child visits under age 3 - ICD-10 (z.00.129)
8	Fluoride varnish procedure count	R2	CHAR(4)	Procedure code 99188
9	Oral screening procedure count	R2	CHAR(4)	Procedure code D0190

Dental Provider Required Data Elements

Listed below are the oral health data elements required to be in compliance with this specialized registry reporting requirements. Accepted data formats include Excel or CSV.

Measures included are designed by the Dental Quality Alliance (DQA) to improve quality of care. Clinics are not required to report on all measures, these are meant as a guide. At least one measure should be included in any reported data.

Details about each measure can be found here:

http://www.ada.org/~media/ADA/Science%20and%20Research/Files/DQA_2016_Practice_Level_Measures_for_Quality_Improvement.pdf?la=en

MiDRSM - Oral Health Care Exchange Specification				
Date of Revision: 11/07/2016				
File Format: CSV or Excel				
Required Fields: "R" = Required, "R2" = Required if known, "O" = Optional				
Field	Field Name	Required	Field Definition	Notes
1	Version of Specification	R	CHAR(5)	Acceptable Values: "v1"
2	Clinic Name	R	CHAR(50)	
3	Clinic OID	R2	OID	Facility Organization ID
4	Clinic Zip Code	R	CHAR(14)	
5	Start of reporting period	R	DATE	YYYY-MM-DD
6	End of reporting period	R	DATE	YYYY-MM-DD
7	Selected Measures	R	CHAR(11)	List each measure being reported (i.e., 1,2,3)
Measure 1: Caries at Recall				
8	Denominator	O	CHAR(5)	Unduplicated number of all children under age 21 years with an oral evaluation during the measurement month
9	Numerator	O	CHAR(5)	Unduplicated number of children who were diagnosed with carious lesions
Measure 2: Caries Risk Assessment Documentation				
10	Denominator	O	CHAR(5)	Unduplicated number of all children under age 21 years with an oral evaluation or assessment during the measurement month
11	Numerator	O	CHAR(5)	Unduplicated number of children with caries risk documented
Measure 3: Sealants, 6-9 Yrs				

12	Denominator	O	CHAR(5)	Unduplicated number of children 6-9 years who had an oral assessment or evaluation visit and are at moderate to high risk for caries (exception: Children 6–9 years who do not have at least one sealable permanent first molar)
13	Numerator	O	CHAR(5)	Unduplicated number of children 6–9 years who received a sealant on a permanent first molar tooth within six months of an oral evaluation or assessment
Measure 4: Sealants, 10-14 Yrs				
14	Denominator	O	CHAR(5)	Unduplicated number of children 10–14 years who had an oral assessment or evaluation visit and are at moderate to high risk for caries (exception: Children 10–14 years who do not have at least one sealable permanent second molar)
15	Numerator	O	CHAR(5)	Unduplicated number of children 10–14 years who received a sealant on a permanent second molar tooth within six months of an oral evaluation or assessment
Measure 5: Topical Fluoride Application				
16	Denominator	O	CHAR(5)	Unduplicated number of all children aged 1–21 years who received an oral assessment or evaluation during the measurement month and have not received two fluoride varnish applications prior to the measurement month
17	Numerator	O	CHAR(5)	Unduplicated number of all children who received fluoride varnish
Measure 6: Follow-up After Well-Child Visit				
18	Denominator	O	CHAR(5)	Unduplicated number of all children aged 1–5 years without a dental home who received a well child visit in the third month prior to the measurement month
19	Numerator	O	CHAR(5)	Unduplicated number of all children who had a follow-up oral evaluation within 3 months
