

HEALTHCARE BTAM TRAINING

The Michigan State Police Prevention Services Section (MSP/PSS) and the Michigan Department of Health and Human Services (MDHHS) are hosting six free **Healthcare Behavioral Threat Assessment & Management (BTAM) Training** sessions across the state. These sessions are designed for physical and behavioral healthcare professionals, security professionals, human resource professionals, EAP professionals, risk managers, and others who work in safety and security for hospitals and healthcare facilities. This one-day workshop will equip attendees with skills and strategies to identify, assess, and manage threats of violence, ultimately strengthening workplace safety and patient safety in healthcare settings.

Seating will be limited to physical healthcare providers, behavioral healthcare providers, healthcare administration leadership, security leadership, human resources personnel, legal counsel, emergency department leadership, patient care personnel, risk managers, and medical school personnel.

- Registration is non-transferable.
- On-site registration will not be permitted.

Sign up for a BTAM training in your area and gain the skills to assess and manage potential threats effectively!

This project was supported by Grant #15PBJA-23-GG-00017-BSSCI awarded by the Bureau of Justice Assistance, Office of Justice Programs, U.S. Department of Justice. The opinions, findings, and conclusions or recommendations expressed in this publication/program/exhibition are those of the author and do not necessarily reflect those of the Department of Justice or the MSP.
