

MICHIGAN ASSOCIATION FOR LOCAL PUBLIC HEALTH

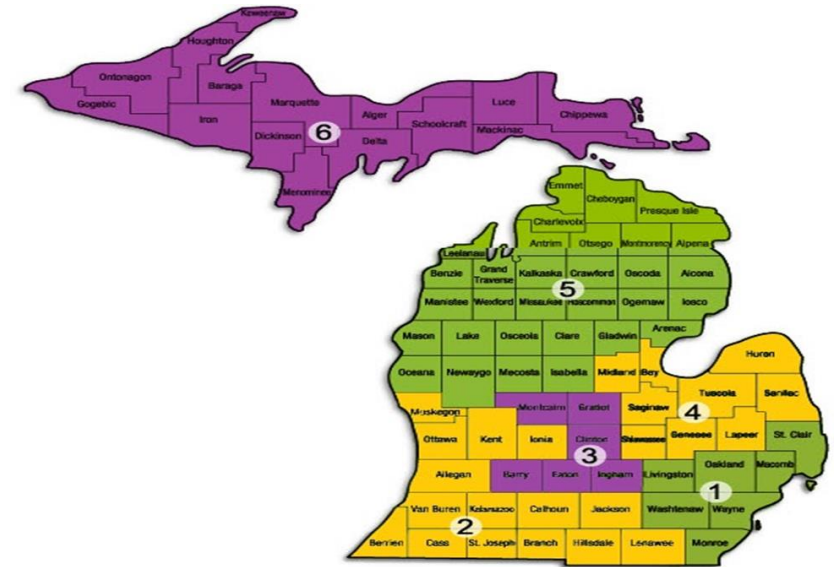

Sustaining Community-Based Immunization Actions

MARY KUSHION, MSA

SR. PROJECT MANAGER

Overview

- ❑ 3-Year Project with generous support from the Michigan Health Endowment Fund of \$1.9 million
- ❑ Purpose: To improve the health of Michigan's children(ages 0-18) and Seniors (ages 65 and older) by developing and piloting a framework for sustaining high levels of recommended vaccinations.
- ❑ Two pilot regions – Urban and Rural – Regions 1 and 5
- ❑ New models and evidence-based practices
- ❑ Encourages additional providers to offer vaccines
- ❑ Development of Immunization Reference Manual

Immunization Reference Manual

3 Parts

- ☐ Guidance for MCIR regions on convening partners
- ☐ Guidance on evidence-based practices, tool kits, and system-based interventions
- ☐ Key strategic resources

Immunization Reference Manual

- Includes case scenarios and vignettes from Pilot Regions
- Links to state and national resources
- Informational materials and tool kits developed within the pilot regions

Access to the Manual and Materials

- Webinar to launch the manual with local public health departments
- Accessible on MALPH Website
- Hard copies available

What would help you?

MICHIGAN ASSOCIATION FOR LOCAL PUBLIC HEALTH

Thank You
